The Institute for Intercultural Communication and interdisciplinary Studies SILK ROAD (IKMiSI SILK ROAD) is a newly found fund of international range of activity. It was registered in the beginning of 2013. So far we have been organizing meetings and lectures on topics connected with promotion and supporting of intercultural dialog ideas, increasing the level of transparency of local governments in Poland, for a wider economic cooperation in the Eurasian and federal Europe areas. We have also taken actions in respecting minority rights and preventing violation of these rights and discriminating people belonging to these minorities. We are now working on three projects based on the work of our experts and volunteers.

The institute cooperates with experts, scientists, columnists and people interested in the activity of our fund. In our structures we have translators in languages: English, Chinese, Russian, French, Spanish, Portuguese, Ukrainian and Belarussian.

Our organisation is on the list of European Transparency Register. As a membership organization we have joined the actions of the European Movement Forum (FRE).
